On-site · Full-time

SUMMARY

Manual QA tester who takes pride in finding the awkward edge cases everyone else misses. Methodical about reproducing issues clearly so developers can fix them on the first try.

EXPERIENCE

Manual QA Engineer — Cedarmount Quality Works	Jan 2023 - Jan 2026
Portland, USA	
Own the manual test effort for a web and mobile product, writing and executing test plans across each release. Triage incoming bug reports and reproduce intermittent issues that automated checks miss. Work closely with developers to verify fixes and prevent regressions from slipping back in.	
QA Tester — Pinegrove Testing Partners	Jan 2021 - Jan 2023
Seattle, United States	
Executed test cases and exploratory sessions for several client applications and logged detailed, reproducible defect reports. Helped maintain the regression suite and verified fixes before each handoff. Supported user acceptance rounds and gathered structured feedback.	

EDUCATION

Bachelor of Arts in Information Sciences	2018 - 2020
Westbrook State University, Portland, Uzbekistan	
Associate of Science in Software Quality and Testing	2015 - 2018
Harborlight Community College, Seattle, USA	
Certificate of Completion in Software Testing Fundamentals	2012 - 2015
Ashford Technical Institute, Tacoma, USA	

CERTIFICATES

Certified Manual Testing Professional	Aug 2024
Functional and Exploratory Testing
