

Ravshan Tokhtaev

Junior System Administrator

ravshan.tokhtaev@example.com · +1 555-0194 · Tashkent, Uzbekistan · DOB: 12 Jan 1998

EXPERIENCE

Junior System Administrator — Lindenwave Hosting GmbH Jul 2025 - Present
Munich, Germany

Assist the operations team with server provisioning, account management, and routine monitoring of internal services. Handle first-line tickets, document recurring fixes, and help keep backup and patch routines running on schedule.

PROJECTS

Course Logistics Scheduler

Built a scheduling tool that coordinated training sessions, instructors, and equipment deliveries for a vocational learning center. As project manager I organized the small build team, set milestones, and made sure the logistics side stayed in sync with the training calendar.

Tech: Flutter, MySQL, C, Ansible

Clinic Helpdesk Companion

Developed a lightweight internal support tool to track maintenance requests across several small clinics. Acting as system administrator, I set up the hosting environment, managed access for staff, and kept the service patched and backed up.

Tech: Ruby, Haskell

Lab Sample Tracking Portal

Created a portal for biotech lab staff to register and trace sample batches through processing stages. I administered the database and mobile access layer, configured user roles, and kept the issue board organized so fixes shipped predictably.

Tech: Microsoft SQL, Blazor, Android Development (Java, Kotlin), Kotlin, Jira

EDUCATION

Bachelor of Science in Computer Systems and Networks 2020 - 2024
Tashkent Institute of Applied Informatics, Tashkent, England

Secondary Vocational Diploma in Information Technologies 2017 - 2020
Samarkand Technical Lyceum, Samarkand, Uzbekistan

Chirchik Polytechnic College, Chirchik, Uzbekistan

SKILLS

- MySQL
- Docker Swarm
- Nginx
- Linux
- Traefik
- Golang
- Ansible
- Microsoft SQL
- WCF
- Sql

LANGUAGES

English (Native), Spanish (B1), Hebrew (B2)

CERTIFICATES

Foundations of Server Administration Nov 2025 – Nov 2028
Infrastructure Operations Track

Network Fundamentals Practitioner Apr 2026

PREFERENCES

On-site, Hybrid · Project-based

LOOKING FOR

Seeking an entry-level system administrator position where I can support real infrastructure while continuing to learn automation and on-call practices.

HOBBIES

Astronomy, long-distance running, and building small home-lab servers.
