

Leontine Brammertz

Junior Networking Specialist

leontine.brammertz@example.com · +1 555-0129 · Aachen, Germany

SUMMARY

Early-career networking specialist who recently moved from coursework into hands-on infrastructure work. I am eager to deepen my skills in routing, switching, and network monitoring while learning from experienced engineers. I care about doing the unglamorous groundwork well so larger systems stay healthy.

EXPERIENCE

Junior Networking Specialist — Kupferdraht Netzwerke GmbH Jul 2025 - Present
Aachen, Germany

Support the operations team in maintaining campus network equipment and tracking connectivity issues. Help document network topology and assist with routine configuration changes under supervision. Monitor alerts and triage incidents before escalating to senior engineers.

PROJECTS

Warehouse Device Mesh

Built a prototype that linked handheld scanners and shelf sensors across a simulated retail warehouse. As networking specialist I designed the segment layout and the lightweight data store behind the device fleet. The companion mobile app let floor staff see equipment status at a glance.

Tech: NoSql, Android Development (Java, Kotlin), .NET 7, .NET, C++

Storefront Logistics Tracker

Developed a coursework project tracking goods from a distribution hub to e-commerce fulfillment points. Took the networking specialist role, mapping how location updates flowed between nodes reliably. Focused on clear status messaging so non-technical users could follow a shipment's progress.

Tech: Communication, Kotlin

EDUCATION

Bachelor of Science in Computer Networks and Communications 2020 - 2024
Rheinmark University of Technology, Aachen, Germany

Associate Diploma in Network Infrastructure 2017 - 2020
Hochtor Polytechnic, Bonn, Germany

Higher Secondary Certificate in Information Technology 2014 - 2017
Talweg Secondary Technical School, Duren, Germany

SKILLS

- Docker Swarm
- Linux
- Nginx
- Python
- Communication
- CI/CD (Gitlab, Jenkins)
- Postgresql
- MySQL
- Confluence
- Swift
- Microsoft SQL
- Windows Forms

LANGUAGES

English (C1)

CERTIFICATES

Foundations of Enterprise Networking

Apr 2026 – Apr 2029

LOOKING FOR

Looking for a junior networking role with strong mentorship and room to grow into deeper infrastructure responsibilities.
