

Sukhrob Tursunqulov

Senior Networking Specialist

sukhrob.tursunqulov@example.com · +1 555-0110 · Tashkent, Uzbekistan

SUMMARY

Senior Networking Specialist with over a decade of experience designing, securing, and operating enterprise networks. I have led infrastructure across telecom, banking, and logistics environments, from core routing to campus wireless. I take pride in building resilient networks that stay quiet under pressure.

EXPERIENCE

Senior Networking Specialist — Chirchiq Network Systems

Aug 2023 - Present

Tashkent, Uzbekistan

Lead the design and operation of the core network for a national logistics provider. I oversee capacity planning, segmentation, and incident response across multiple sites. I also mentor a small team of network engineers and set our operational standards.

Network Infrastructure Engineer — Amudarya Telecom Solutions

Apr 2021 - Aug 2023

Samarkand, Uzbekistan

Managed the regional backbone and access layer for a growing telecom operator. I led a migration to a more resilient routing design that cut major outages significantly. I worked closely with the security team on hardening edge devices.

Network Engineer — Sirdaryo Data Networks

Dec 2018 - Apr 2021

Tashkent, Uzbekistan

Operated and expanded the network for a data centre serving financial clients. I handled switching, firewall policy, and monitoring across a high-availability environment. I introduced structured change management that reduced configuration errors.

Systems and Network Administrator — Zomin Communications Group

Sep 2016 - Dec 2018

Bukhara, Uzbekistan

Maintained the combined server and network estate for a mid-sized services company. I rebuilt the campus wireless and tightened access controls across the site. The role gave me broad exposure to both infrastructure and security work.

Network Support Engineer — Nurota IT Services

Jul 2015 - Sep 2016

Tashkent, Uzbekistan

Provided second-line support for client networks across several industries. I diagnosed connectivity and performance issues and documented recurring fixes. I also assisted with small office deployments and cabling projects.

Junior Network Technician — Angren Tech Collective

Mar 2014 - Jul 2015

Angren, Uzbekistan

Started my career supporting routers, switches, and end-user connectivity. I learned to read and trace network configurations and resolve common faults. The position built my foundation in everyday network operations.

EDUCATION

Master of Science in Telecommunications Engineering

2011 - 2013

Tashkent Institute of Communications Technology, Tashkent, Latvia

Bachelor of Science in Computer Networks

2009 - 2011

Fergana Technical University, Fergana, Uzbekistan

Diploma in Information Technology

2007 - 2009

Navoi Polytechnic College, Navoi, US

SKILLS

- Postgresql
- Ansible

- Sql
 - Docker Swarm
 - Nginx
 - CI/CD (Gitlab, Jenkins)
- NoSql
 - Communication
 - Scala
 - C++

LANGUAGES

English (Native)

CERTIFICATES

Advanced Enterprise Routing Specialist Network Infrastructure Track	Mar 2021 – Mar 2024
Network Security Operations Professional	Oct 2019 – Oct 2022
