

Wieland Stahlberg

Senior System Administrator

wieland.stahlberg@example.com · +1 555-0125 · Dresden, Germany

SUMMARY

Senior system administrator with nearly a decade of hands-on experience keeping mixed on-premise and cloud environments stable, secure, and audited. I enjoy untangling brittle legacy infrastructure and replacing it with documented, automated, repeatable processes that the whole team can trust.

EXPERIENCE

Senior System Administrator — Falkenried Datendienste Feb 2024 - Jan 2026
Dresden, Germany

Owned the operational health of a multi-site server estate, leading patch cycles, backup verification, and incident response for business-critical services. Mentored two junior administrators and introduced a change-control process that sharply reduced unplanned outages.

System Administrator — Nordwind Hosting Werke Aug 2021 - Feb 2024
Leipzig, Germany

Maintained virtualization hosts and storage clusters for a managed-hosting customer base, handling capacity planning and after-hours escalations. Automated routine provisioning so that new customer environments could be stood up in hours rather than days.

Infrastructure Administrator — Habichtsborg IT-Systeme Apr 2019 - Jun 2021
Chemnitz, Germany

Administered directory services, mail, and file infrastructure for an organization of several hundred users. Drove a migration off aging hardware while keeping downtime within tight maintenance windows.

Junior System Administrator — Tannensee Rechenzentrum Dec 2016 - Feb 2019
Erfurt, Germany

Supported daily operations of a regional data center, monitoring systems and responding to first-line infrastructure tickets. Documented recurring fixes into a shared knowledge base that became the team's go-to reference.

EDUCATION

Bachelor of Science in Network and Systems Administration 2013 - 2015
Saxon Polytechnic of Applied Informatics, Dresden, Germany
